Report on FDP on Future of Online Examination

Date: Date: 15th March, 2020

Speakers: Dr. Pratap Mishra (Principal Investigator(NTA)

The Faculty Development Program (FDP) on " **Future of Online Examination**," conducted from May 18 to 22, 2020, served as a pivotal platform for educators to navigate the unprecedented shifts brought about by the pandemic. Esteemed speaker **Dr. Pratap Mishra** led the discussions, providing insights into the challenges and opportunities emerging in online examinations.

The FDP addressed the comparison of online and other exams. The Online Examination System is widely used. Online examination system can be deployed in private institutes as well as educational institutions. As it is a user-friendly web-based application it can be accessed anywhere and anytime. Using modern technologies, NTA also develop a more secure and user-friendly application

The candidates/students can take the assessment or examination by logging into the online examination system during exams. Apart from this, they also get the opportunity to see their results and answers as instant feedback about their knowledge or understanding of their chosen topics.
