Abstract:
COVID-19 cases in India cross 4.47 crore crossing more than 53.1 lakhs deaths worldwide and more than 5.31 lakhs deaths in India. More than 200 countries are declared with novel coronavirus pandemic. In this article, the researchers have tried to explain the impact of COVID-19 on the Indian Economy with its measures on basis of the three-sector model of the Economy. The service sector seems to be affected heavily by the pandemic, as the aviation, hotel industry and financial system of our country come under destroyed demand. Different measures are considered by our government, finance ministry and RBI to decrease the effect. Keywords: Manufacturing units, lockdown, economy, covid-19, pandemic
