

### ICT/COMPUTING SKILLS, 2020-21

#### Workshop on SPSS for 2nd year students 14/01/2020

The Workshop on SPSS for 2nd Year Students at LLDIMS Research Faculty held on January 14, 2020, proved to be an insightful and enriching experience for participants. The event, organized by the faculty, aimed to equip second-year students with essential skills in Statistical Package for the Social Sciences (SPSS). The workshop covered fundamental SPSS functionalities, data analysis techniques, and interpretation of results. Facilitated by experienced instructors, the session fostered an interactive learning environment, allowing students to actively engage with SPSS tools and methodologies. The initiative not only enhanced the students' statistical competence but also provided a valuable platform for networking and collaboration within the academic community. Overall, the workshop played a crucial role in advancing the research capabilities of the participating 2nd-year students at LLDIMS Research Faculty

**New Intervention Conversation Series 15/01/2020 , Padma ShriDeepa Malik, Dr. BijayaLaxmi Nanda, Smt. Asha Devi & Ms. PrabhaRao**

On the 15th of January 2020, the New Intervention Conversation Series brought together four remarkable individuals, each contributing their unique perspectives to the discourse. Padma ShriDeepa Malik, a Paralympian and disability rights advocate, shared insights on resilience and overcoming challenges. Dr. BijayaLaxmi Nanda, an esteemed academic, offered valuable perspectives on gender issues and empowerment. Smt. Asha Devi, a prominent figure in the fight against sexual violence, discussed the importance of justice and societal change. Ms. PrabhaRao, a trailblazer in public service, shared her experiences in breaking barriers. This powerful convergence of voices illuminated key issues and provided a platform for constructive dialogue on empowerment, resilience, gender equality, and social change.

### Workshop Fake News and Social Networking Security 5/3/2020

On May 3, 2020, Ms. Arnika Singh, Co-founder of Social Media Matters, delivered a compelling presentation at the Workshop on Fake News and Social Networking Security. The workshop addressed the critical issues surrounding the proliferation of fake news in the age of social media and highlighted strategies for enhancing online security. Ms. Singh's insights delved into the multifaceted challenges posed by misinformation and emphasized the importance of promoting digital literacy and fact-checking mechanisms. Attendees gained valuable perspectives on safeguarding social networking platforms against malicious activities. The event successfully underscored the pressing need for collaborative efforts to create a secure online environment amidst the evolving landscape of information dissemination.

### Workshop on Data Visualization 23/12/2020

On December 23, 2020, the Department of Education hosted an insightful workshop on data visualization. The event garnered significant participation, with 75 attendees eager to enhance their understanding of visualizing educational data. The workshop provided a comprehensive overview of various data visualization techniques, tools, and best practices, equipping participants with the skills to effectively communicate complex educational insights. The session not only fostered a collaborative learning environment but also facilitated discussions on the practical applications of data visualization in educational contexts. Participants left the workshop with valuable insights and a heightened ability to translate data into compelling visual narratives, empowering them to make informed decisions and drive positive educational outcomes.
