

ICT/COMPUTING SKILLS, 2019-20

Workshop on Data Analysis and SPSS 1/31/2019

The Workshop on Data Analysis and SPSS held on January 31, 2019, was a resounding success with 37 participants actively engaging in the sessions led by Dr. Sachin. The workshop provided a comprehensive overview of data analysis techniques, with a specific focus on utilizing the Statistical Package for the Social Sciences (SPSS) software. Participants gained valuable insights into various data analysis methods and practical applications, enhancing their skills in interpreting and drawing meaningful conclusions from data. Dr. Sachin's expertise and interactive teaching style contributed to a dynamic learning environment, fostering a deeper understanding of statistical concepts. The workshop not only equipped participants with practical SPSS skills but also encouraged collaboration and knowledge sharing among attendees. Overall, the event served as a valuable platform for enhancing data analysis proficiency and fostering a community of practitioners keen on leveraging statistical tools for informed decision-making.
