DEPARTMENT: EDUCATION

THEME: INCREDIBLE INDIA

One of the oldest civilisations in the world, India is a mosaic of multicultural experiences. With a rich heritage and myriad attractions, it covers an area of 32, 87,263 sq. km, extending from the snow-covered Himalayan heights to the tropical rain forests of the south. Indian culture is very diverse. More than 1.3 billion people identify as Indians, and we speak as many as 22 major languages and use a myriad of different scripts. Indian culture is world-renowned for its diversity and integrity. The Indian population consists of numerous languages, religions, races, and ethnic groups, reflected in the country's clothing and rituals.

Fringed by the Great Himalayas in the north, it stretches southwards and at the Tropic of Cancer, tapers off into the Indian Ocean between the Bay of Bengal on the east and the Arabian Sea on the west. As you travel the expanse of the country, you are greeted by diverse nuances of cuisines, faiths, arts, crafts, music, nature, lands, tribes, history and adventure sports. India has a mesmerizing conflation of the old and the new.

Diversity of India is an important concept to be discussed with the students of education department because there is a diversity in every classroom and teachers should know the importance of being secular and sensitive towards the diversity and variations among the students in the classroom.
