VISIT TO BOTANICAL GARDEN

DATE-07-02-2019

Eco cell LLDIMS organizes nature Walk for BBA and B.Com. (Hon.), students visit to botanical Garden Noida. Nature walk was held on 7th Feb,2019. Doing a nature walk is not only about celebrating Earth Day. It's also an opportunity for learning experiences in a variety of subjects such as science, geography, math, and art. A nature walk is exactly what it sounds like-you go for a walk outside and see what you find.Each nature walk offers something different for students to explore – even if you walk the same trails from one day to the next. If you live in a colder climate, the changing seasons can be another great way to observe plants and animals as the weather shifts. Such experiences can be exhilarating, fun, and inspirational. We often hear students say, when we go outdoors, we don't really know we're doing it, but we're actually learning math, doing science, and practicing English, so it's just making it educational and fun at the same time.

Awareness Drive on "Save Water"-25.02.2019

Water scarcity today has become a big issue which if not dealt with in time, will turn out to be a hazard. To make students aware to conserve water, the Eco Cell, LLDIMS organized a Awareness drive on "Save water". The main objective of the save water campaign was to increase awareness of students about the scarcity of clean water and sensitize them about the conservation of water, a precious resource. With this campaign students and masses were sensitized about the importance of every drop of water and ways to conserve water also reduce the wastage of water to overcome the consequences of scarcity of water which will be faced by people in future.
