NEWSLETTER: APRIL, 2024

DEPARTMENT: EDUCATION

THEME: "Skill Development"

Skill Development refers to the process of acquiring, improving, and enhancing a wide range of skills and competencies. It involves the deliberate and continuous effort to build knowledge, expertise, and capabilities in specific areas to meet the demands of one's work or to pursue personal and professional growth.

The development of skills can contribute to structural transformation and economic growth by enhancing employability and labor productivity and helping countries to become more competitive. Although skills development and how to develop your skills is a big topic to cover, it is further divided into three categories; cognitive, technical, and interpersonal skills. Skills development can also be explained as a form of instruction where through repeated and detailed experiences, knowledge is being learned. Developing a skill requires three essential steps: Get training. Attend a workshop, take a course, read an article or book, observe someone who excels at the skill. These are all ways to add strategies to your toolbox. Department of Education, LLDIMS, organizes all such activities at regular intervals for the overall skill development of all the students.

SYLLABUS TO BE COVERED THIS MONTH

B.Ed 1st Year (Semester- II)	B.Ed 2nd Year (Semester- IV)	B.Ed
