

(NAAC Accredited 'A' Grade Institute & Approved U/s 2(f) of UGC Act 1956)

Lingaya's Lalita Devi Institute of Management & Sciences
Mandi Road, Mandi, New Delhi – 110047
(Affiliated to GGSIP University, Delhi, Govt. of Delhi & NCTE)

13. General Parameters about the Institution

1. Individual seating arrangements for faculty with suitable furniture.

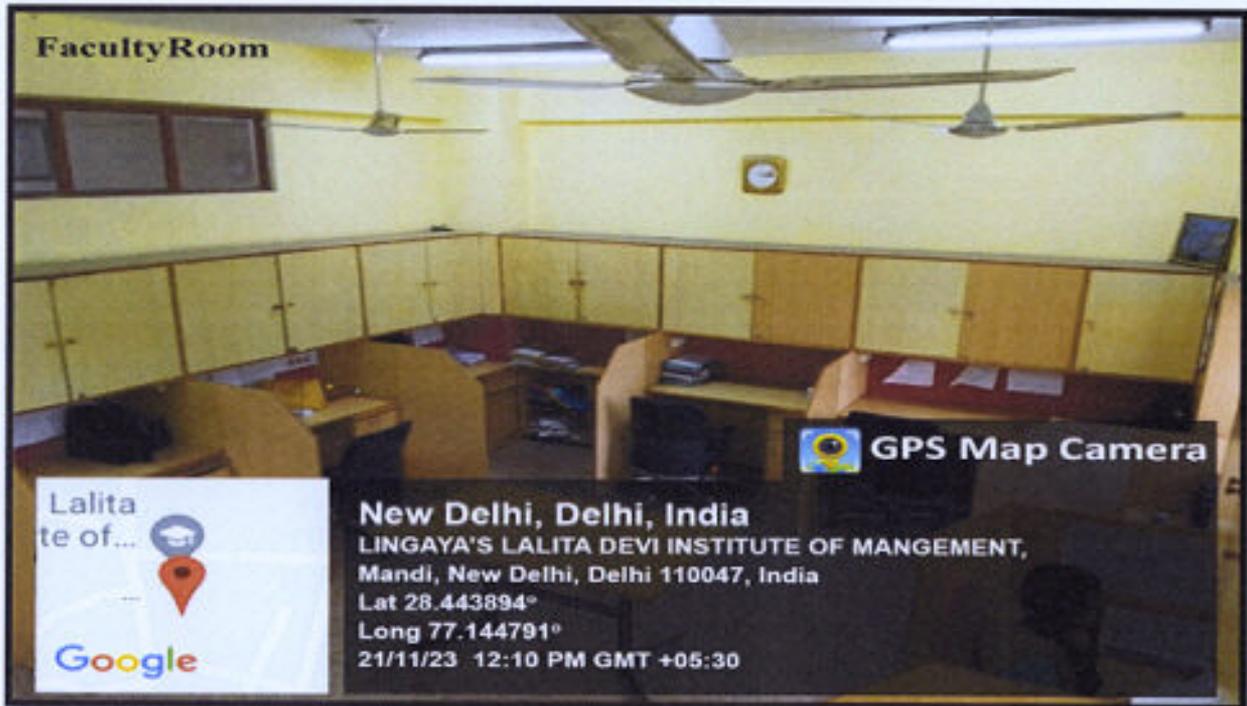

The presence of a comfortable and well-organized workstation at Lingaya's Lalita Devi Institute of Management and Sciences has been found to have a positive impact on productivity and efficiency levels. When provided with appropriate furniture and seating arrangements, faculty members are able to concentrate on their jobs without being hindered by the inconvenience or discomfort of an insufficient workspace.

The arrangement of faculty offices or workspaces significantly impacts the level of collaboration and communication among staff members. An optimally planned environment promotes collaboration and cooperation, cultivating a communal atmosphere among academic staff.

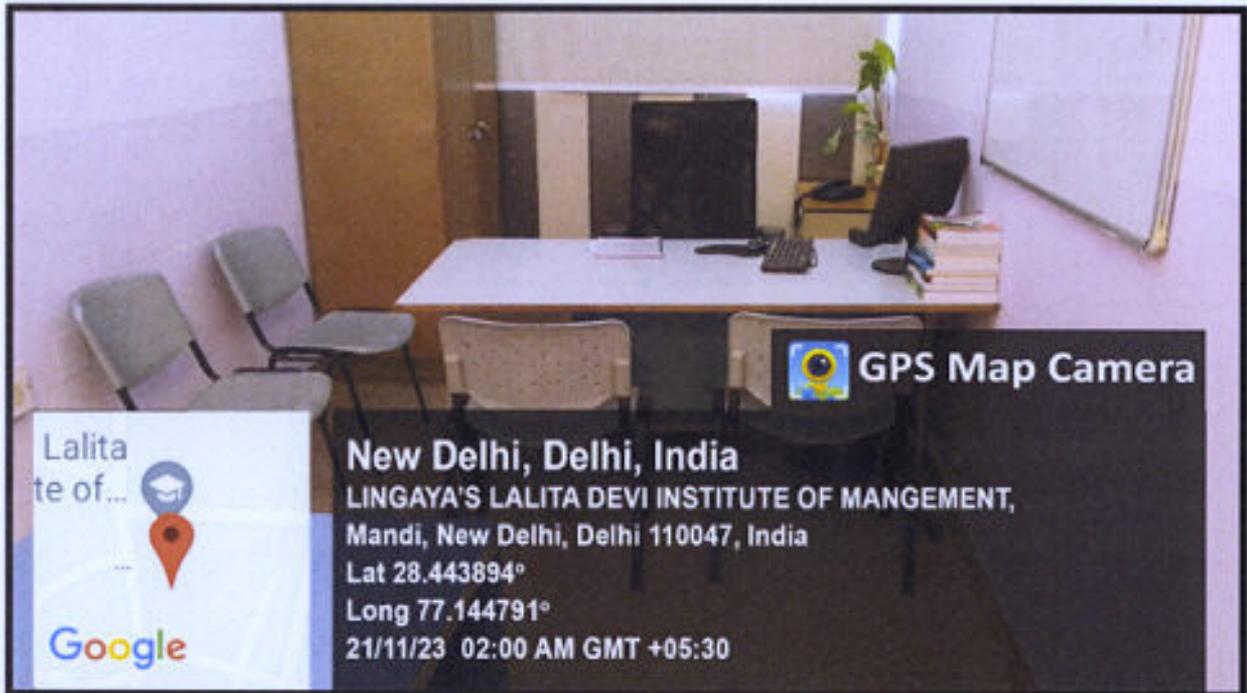

The aesthetic presentation of the workstation has a significant role in shaping the professional identity of the academic members and the institution's overall reputation. The creation of well-designed and organised office spaces has the potential to provide a favourable image among visitors, prospective students, and colleagues.

Providing appropriate furniture and an effective seating arrangement for faculty members is crucial in supporting their physical and mental health, improving their work efficiency, facilitating teamwork, and ultimately bolstering the overall achievements and favourable reputation of an educational establishment.

3. Common Rooms for Girls

At LLDIMS, the separate girls' room facilities for female students ensure a heightened sense of privacy and dignity. The act of separating oneself from others provides individuals with a designated area in which they can experience a sense of comfort and security, free from worries over the infringement of their privacy.

Providing a separate girls' room for female students contributes to establishing a heightened perception of safety and security. Ensuring the well-being of female students is of special significance, as it offers them a secure and less susceptible environment.

The provision of a dedicated space exclusively for female students contributes to the establishment of an environment that promotes optimal concentration on academic pursuits. The provision of a shared girls' room can reduce distractions and create an environment conducive to focused studying, hence facilitating academic concentration. These communal areas offer prospects for social interaction, fostering camaraderie and mutual assistance, so cultivating a favourable and all-encompassing collegiate environment.

4. Cleanliness of Toilets

LLDIMS exhibits a strong dedication and comprehension of the significance of clean toilets in upholding optimal health and hygiene. Implementing appropriate sanitation measures has a crucial role in mitigating the transmission of diseases and infections, positively impacting the health and welfare of students and staff. It is worth noting that a competent workforce has diligently maintained all lavatory facilities across all levels.

An established feedback process is implemented to facilitate continuous improvement and advancement. Ensuring adherence to regulations is vital to establishing a secure and conducive environment for all campus community members. Providing a hygienic and adequately maintained lavatory facility significantly enhances the overall welfare and satisfaction of students and staff members.

Providing a more agreeable and hygienic encounter contributes to enhancing the overall student experience within the campus environment. The promotion of gender equality and inclusivity is facilitated by the implementation of cleanliness measures in restrooms designated for both boys and girls. It is imperative that all students, irrespective of their gender, are provided with equitable access to hygienic and well-maintained facilities that cater to their specific requirements. Providing clean restrooms equipped with appropriate waste disposal facilities for staff members and students fosters responsible waste management practices among the students. It contributes to promoting a cleaner and more ecologically sustainable campus environment.

5. Students' Canteen and drinking water arrangement

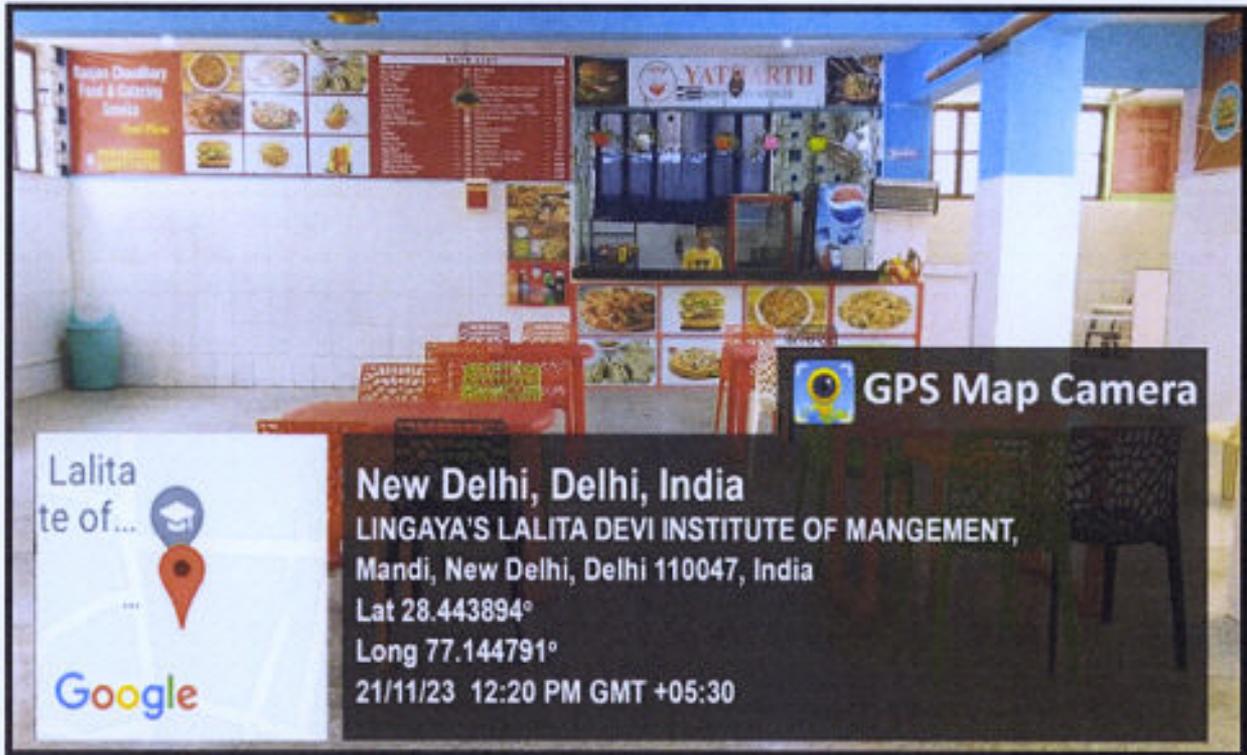

An effectively administered canteen allows students to avail themselves of nourishing and well-rounded meals. Ensuring enough nutrition is paramount for individuals' holistic health and welfare, as scientific evidence has established a positive correlation between optimal dietary intake and enhanced academic achievement and cognitive focus. At LLDIMS, we prioritise the meticulous management of this aspect.

The cafeteria at LLDIMS endeavors to foster healthy dietary practices among the student population. The provision of a diverse range of nourishing food choices by the canteen can contribute to cultivating a culture that promotes healthy dietary habits and lifestyle preferences. The canteen facility at LLDIMS functions as a central meeting point for students, facilitating social interactions and fostering a collective feeling of community. The social dimension holds significant value in shaping the college experience and fostering a campus culture characterised by positivity and inclusivity.

Providing food and water on campus is essential in meeting students' basic needs, as access to these amenities is considered a fundamental necessity. Consequently, this facilitates their capacity to concentrate on scholastic pursuits and various dimensions of collegiate existence.
